

Crippled Heart 3:34

I tell you nothing,
And you don't hear a thing
Our communication's coming from left wing
But there must be some way, Baby
Just show me a sign
Cause I'm reaching out for your life line
And all I ask is
Give me one more chance
Try to make this crippled heart dance
Give me one more night alone with you
Give me one more chance
Try to make this crippled heart dance
Give me one more night alone with you
Time is a healer
And it washes away the pain
And gives us the strength
To love again
Give me one more chance
Try to make this crippled heart dance
Give me one more night alone with you
All I ask is
Give me one more chance
Try to make this crippled heart dance
Give me one more night alone with you
