

So Long Sugar-Pie 3:48

So long sugar-pie, bye, bye
We've got to keep our heads together
So long sugar-pie, bye, bye
We'll sail this ship through stormy weather
I've been thinking about the love
That I want in my life
It's got me so preoccupied
I've been thinking about the love I want to return
But you've got me standing in line
So long sugar-pie, bye, bye
We've got to keep our heads together
So long sugar-pie, bye, bye
We'll sail this ship through stormy weather
When I think about the times
Yeah the wasted years
(Got to live and learn)
It's got me drowning in an ocean of tears
(Watch our bridges burn)
I keep thinking about the love that I want in my life
But you keep me waiting here
So long sugar-pie, bye, bye
How many lies do you want me to take
(Got to live and learn)
How many broken dreams
(Watch our bridges burn)
How many times must this poor heart break
I come apart at the seams
So long sugar-pie, bye, bye
We've got to keep our heads together
So long sugar-pie, bye, bye
We'll sail this ship through stormy weather
So long sugar-pie, bye, bye
So long sugar-pie
